EXPERIENCE

Software Development Intern

Defence Research and Development Organisation (DRDO)

Jan 2024 – Apr 2024

Chandigarh, India

- Developed an LSTM Model for short term and Hyperlocal cloud forecasting.
- Developed Web-Based 3D Geographic Information System for mapping Snow Avalanche details.
- Engineered advanced geographic data visualizations using Cesium.js, enhancing analysis of avalanche parameters.
- Created a dashboard for filtering avalanche points and managing snow avalanche parameters in a MySQL database.

Technologies Used: Python, OpenCV, Keras, Node.js, JavaScript, MySQL, Cesium.js, Express.js, HTML, CSS

EDUCATION

Punjab Engineering College

B.Tech, Electrical Engineering, CGPA: 8.55

Dec 2021 – Jun 2025

Chandigarh, India

St. Peter's Senior Secondary School

Grade 12, Percentage: 88.6%

Apr 2020 – Apr 2021

Chandigarh, India

St. Xavier's Senior Secondary School

Grade 10, Percentage: 92.8%

Apr 2018 – Apr 2019

Chandigarh, India

PROJECTS

TalkTime

July 2024 – Aug 2024

Web Development Project

Node.js, Express.js, MongoDB, React, Socket.IO, Recoil, JavaScript

- Designed APIs to login/register users, add, like and comment on posts with authentication and authorization.
- Implemented real time messaging functionality using Socket.IO library in Node.js and sorting and filtering of posts.
- Integrated with frontend using Fetch API calls and state management using Recoil.

Economic Load Dispatch

Nov 2023 – Dec 2023

Minor-Project

JavaScript, React, Apps Script Api, Chart.js, Excel, HTML, CSS

- Led a team of 5 and resolved the problem of Economic Load Dispatch using Dynamic Programming.
- Developed a data-fetching mechanism through Apps Script API to gather Excel data for load generation analysis in India, enabling precise forecasting of future load patterns.
- Meticulously utilised Chart.js to display the fetched data on the website.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, HTML, CSS

Web Development: Node.js, Express.js, React.js, MySQL, PostgreSQL, MongoDB, REST API, Sockets, Tailwind

Libraries & Tools: NumPy, Pandas, Scikit-learn, VS Code, Github, Postman, Git, MySQL Workbench, OpenCV, Keras

Computer Fundamentals: Data Structures, Algorithms, Object Oriented Programming, Database Management System

CERTIFICATIONS AND ACHIEVEMENTS

- Achieved a rank of 69 out of 1000 teams in ZS Campus-Beats Tech Challenge (2024).
- Won 3rd Prize out of 40 teams in Hack2Hatch Software Hackathon conducted by EIC, PEC (2024).
- Solved over 875 coding problems on LeetCode and achieved a rating of 1828, among top 7.65% (2024).
- 4 Stars at CodeChef with a rating of 1831, securing ranks such as 98 in Starters 95, 116 in Starters 113, 439 in Starters 114, 384 in Starters 115, 280 in Starters 117, 406 in Starters 123 and 321 in Starters 125 (2024).
- Coursera: Supervised Machine Learning: Regression and Classification (2024).
- Completed Node.js Certifications - Express Essentials: Node.js and Complete Node.js Developer.
- Earned Certificate of Excellence and Completion in DSA from Coding Ninjas (2022).
